

Town of Temple
Conservation Commission
Dec 3, 2005 Site Visit
Minutes

Attendees: Bruce Kantner, Ben Tirey, Dave Repak, Roger Hatt and John Kieley.

The Commission joined the Planning Board and several abutters on a walk along the proposed roadways across the site. Particular attention as paid to the many wetlands crossings and required road construction work to complete the project. The engineer confirmed that in places up to eighteen feet of fill would need to be added to elevate the roadways to meet Town road grade requirements. In other locations similar sized cuts would be required.

The meeting adjourned at 1:00 PM.
